

**SUPPORT YOUR COMMUNITY.  
SUPPORT YOUR TEAM.**

# **SUPPORT RUGBY.**

Since 1978, the Newport News Rugby Football Club has been contributing to the health, fitness, and community spirit of the Hampton Roads area. The impact goes beyond the team's 40+ current members and their families to the high school teams and other organizations that our members support through their outreach and volunteer service. Businesses throughout the area have also benefitted from the team's visibility and achievements. Our partnerships with companies and establishments in the restaurant, retail, service, and other sectors have helped our team to thrive and brought great publicity and attention to our sponsors.

The Newport New Rugby Football Club is about to enter an exciting new era in its history, with an even greater focus on family and community involvement, and we are seeking support from area businesses that share our values and commitment to a healthy and competitive Hampton Roads. Gifts of cash or gifts in kind can help us to draw attention to both our team and your business.

We will kick off our Fall 2011 season with an event that will bring together our current team with many former players, their families, and members of the public: NNRFC Founder's Day. This celebration of rugby sportsmanship and team spirit will be held on Saturday, September 3<sup>rd</sup> in Newport News, and it will feature a live and silent auction and raffle to raise support for the both the adult and high school teams' needs, including equipment replacement, referees, and league and tournament fees. Auctioned items are donated by area businesses, and we ask you to consider a contribution.

We are also offering the opportunity for our business partners to have signage at this event, at our games, and on our website. Sponsorships can be negotiated based on the visibility you desire and the size of your business. Support of the Newport News Rugby Football Club is a great way for your business to reach new audiences and make a difference in the community.
