

Pitch Talk

This is the second of planned news letters to keep you updated with facilities and the pitches at RRFC HOLME PARK.

Hi all, we are nearly there again and season will be upon us very soon. We have made some big changes at the club over the weekend and I would like to extend my thanks to all those who helped, and especially Phil Smitherman, Craig, Chunky, Andy Silvey, and Andy Clarke. Over the last couple of weekends they have worked hard to transform the changing rooms. New doors have been fitted, walls have been built and new benches have been built. This has almost been finished and just a bit of painting to be finished off. The men's loos have been completed, and the club house painted. The pitches have been watered during the dry days and they are in a better shape than they were.

Healey corner has now been prepared and seeded and we just wait for the grass to grow. We may not be able to use it this coming season but we have made a start to provide extra space.

We just need the final work to be completed on the lights and then we will have a club in a far better shape than it was at the end of last season.

There are a few things we have had to postpone due to not having the time or money to complete the projects to a standard of the other work completed. We will be looking at the other changing facilities and showers shortly and up grading existing facilities.

I would like to ask you if you see others not treating the facilities with respect than challenge them and ask again for you to leave your mud and muddy clothes in the changing room and not to come in to the club without a change of kit. It takes a lot some days to clean up and we will have to spend money on repairs and cleaning rather than upgrading facilities.

STILL THE SAME OLD MOAN.....

To finish with a moan, please use the bins provided for bottles and tops as these cause injury and take time to pick up. If don't you want to be off for the start of the season with stitches in your leg. Again challenge those who are leaving rubbish on the pitches. We pride ourselves with having safer pitches than some teams who use pitches open to the public so please help us to prevent injury and keep your club safe and clean.
