

Pitch Talk

September 2010

This is the third of planned news letters to keep you updated with facilities and the pitches at RRFc HOLME PARK.

It's me again to keep you updated with any news and developments in the club. We have now kicked off and Youth rugby has come back from the summer break and things are back to normal on Sunday mornings. The first week of registration has been completed and the second week this Sunday to catch all those unable to make it last week. New kit has been given out to groups and the balance will be given out over the next couple of weeks.

A plea from the committee and helpers who keep the ground in a good state, please use the bins provided and take your rubbish home and don't drop it and expect others to clear things up. If you use training kit please return it in good order and make sure you look after it and put it away. Two new containers will be on site soon and the kit will be put away and you will have to check it out and return it after use to the containers. They will be in a position temporary at first until we get the hard standing completed.

A big THANK YOU to Sue Glew and her team of parents and team for helping to complete the painting of the changing rooms. They have been hard at it over the past couple of weeks during training and we will have it completed soon. The difficult bit is doing it when the rooms need to be used but we will sort it out soon.

THANK YOU again.

I would like to ask you if you see others not treating the facilities with respect than challenge them and ask again for you to leave your mud and muddy clothes in the changing room and not to come in to the club without a change of kit. It takes a lot some days to clean up and we will have to spend money on repairs and cleaning rather than upgrading facilities.

We have marked out the pitches for the season now and with the help of Kev Rackley sorted out the kit and we propose to leave the marker posts out during the week and just return the flags to prevent loss. Please leave them in position and do not remove them as we will not replace lost ones as this is a waste of money. The pitches will be marked up now each week (weather permitting) so please respect this as it takes a long time. If you find small yellow or white nylon tufts on the lines they are pitch markers please do not remove them they will not harm you. I had to replace 30 last weekend and it took me 5 hours, the rest will be replaced as we go along.
