

Pitch Talk

May 2011

We all look forward to the new season.

I have not sent a message out for sometime, not a lot to report up until now.

From Monday 16th May 2011 pitch maintenance has begun and the club has decided to commit to a programme of spend to improve the playing surface for you all and improve upon the work we did last year.

Full details are available on request but basically **PITCH 2** will be **out of bounds** for the whole of the summer to **all**. We are doing most of the work on this pitch and other areas which will be clearly marked will also be **out of bounds**. The work will include re seeding and because of this the ground will need to be left to enable the grass to germinate and grow.

We are also looking for your help in completing many little jobs around the club over the summer, some will be easy and any little help will be welcomed. Please keep up to date and see dates posted on the Web site over the next week. This will enable us to keep the money we spend on outside contractors down and enable us to do more for your club.

If you have time and would like to help please contact I or Craig and we can find you something to do in the warm summer evenings. Don't forget the club is still open on **Thursday evenings** so combine the 2 give the club an hour of your time and then finish with a pint in the warm evening sun.

If you cannot find the time we are looking for donations to off set the cost of the work needed to put the pitches back for next season, so just write us a cheque if you want and then have a pint when you come down to drop it off.

Thanks in advance Mark
