Risk Assessments

Thatcham Town Harriers have undertaken risk assessments to cover the key areas of exposure for all those associated with the club, either as player, manager, supporter or helper.

The aim of the risk assessment is to identify hazards and issues, understand their impacts, identify measures to reduce or remove the impact and re-assess.

The risk assessments are conducted and reviewed on a regular basis. They are to be made freely available for all to see and are open for feedback and updated as required.

Areas covered are:

- School Playing Fields (Mary Hare, Francis Baily, Spurcroft, Parsons Down, Castle, Thatcham Park)
- Henwick Sports Fields (including grass and astro)
- Match day Travelling

Assessor's Name:	G R Peters	Last Reviewed:	October 2008	Next Review Date:	March 2010
Location:	School playing fields		Persons at Risk:	Severity:	
Description:	Football Training Football Matches	A	Football Team (Boys/Girls)	1	High
		B	Coaches	2	Medium
		C	Non Members (Boys/Girl)	3	Low
		D	Parents/Carers	4	None

Identified Hazard	Affected groups	Potential Outcome	Likelihood/Probability	Risk Rating before Controls	Control Measures (Training, Information, Physical controls)	Potential Outcome with controls	Likelihood/Probability with controls	Final Risk Rating
Slippery Surfaces (wet grass, tarmac)	A, B, C, D	2	2	2	Trained and Competent Coaches. General Supervision. Suitable footwear. Football Team members awareness. Free from obstructions. Good Housekeeping. First Aider available. Adequate Accident Procedures.	3	3	3 Low
