

How to load videos onto the Palmyra Rugby Website

Introduction

Videos can be loaded onto the website by any registered member of the Palmyra Rugby website. The video must be less than 99.9MB in size which is about 2 minutes in mpeg format which seems to work the best. Once the video is loaded, you need to share the video with the club. It will then be encoded by the Pitchero website staff which prepares it for viewing as a smaller sized file. This can take up to 24 hours. The webmaster will then review the video before publishing. Videos of junior age groups will be locked so they can only be viewed by the Palmyra Rugby website members.

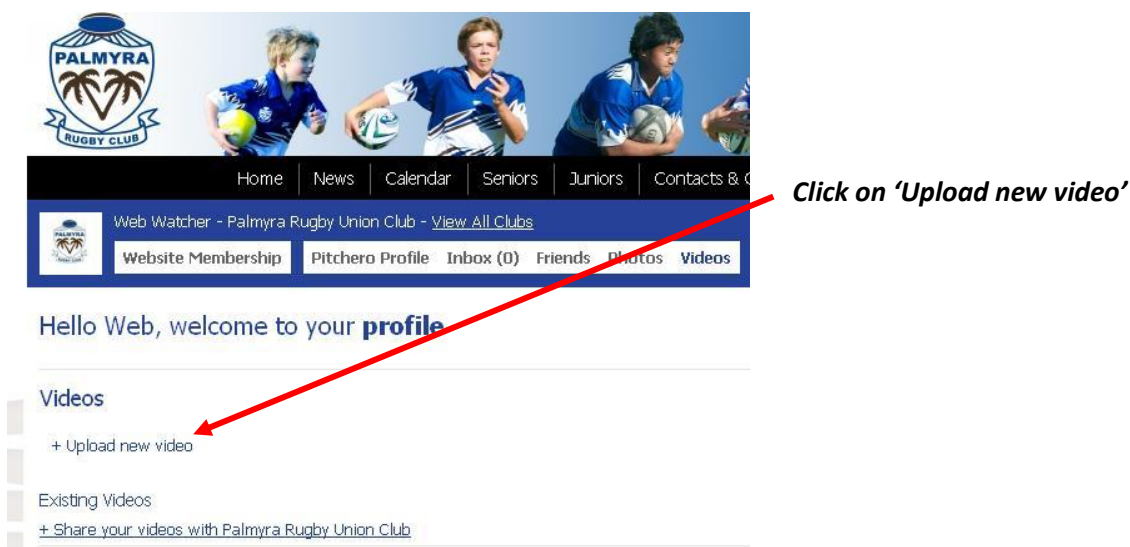

1. You need to be a member of the website first, then you can login

2. Once you have logged in, click on 'Photos' link on your members toolbar

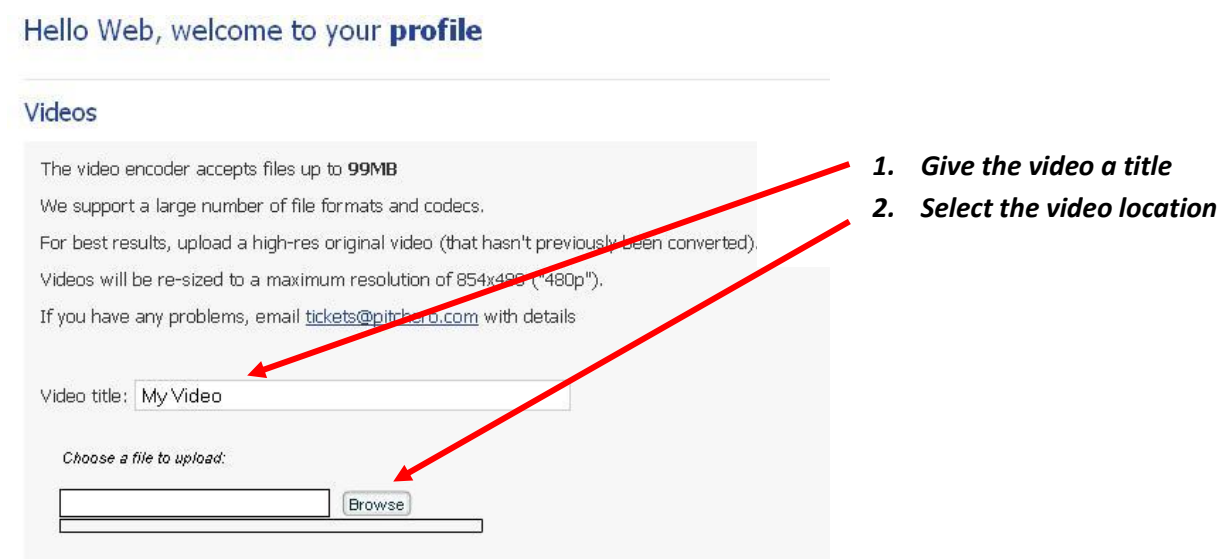

3. You are now in the videos section of your profile on the website and can see any videos you have uploaded previously. Select the 'Upload photos into new album' link.

Click on 'Upload new video'

4. Give the video a meaningful title. Select the location of the video from a folder on your computer.

1. Give the video a title

2. Select the video location

Note: Save your video as an mpeg format suitable for viewing on a computer. The file size must be less than 99.9MB. This is about 2 minutes in length.

- Once you have selected the video file from your computer, click on the 'Upload' button. Be patient the upload could take some time depending on the size of the file and the speed of your internet connection.

Hello Web, welcome to your **profile**

Videos

The video encoder accepts files up to **99MB**

We support a large number of file formats and codecs.

For best results, upload a high-res original video (that hasn't previously been converted).

Videos will be re-sized to a maximum resolution of 854x480 ("480p").

If you have any problems, email tickets@pitchero.com with details

Video title:

1st_2nd_half.mpg (75006 kb): Click Upload to proceed...

- When the video is uploaded, press the 'Continue' button.
