

## VOTE RUSSELL AUBREY FOR MAYOR OF MELVILLE

### A Message from Our Club Patron

My passion for Rugby has found a genuine home within your Club: from the numerous functions, games, and Award presentations that my wife, my daughters and I have attended, the fellowship and camaraderie are clearly evident: Pally is a healthy vital club committed to offering a Lifetime of rugby experiences to all ages, gender, nationalities and backgrounds.

As Mayor, I am committed to the sustainable future for recreation and sports in our City. There are many challenges ahead if we are improve the provision of sports facilities with water shortages, increased demands on our limited open spaces and sky-rocketing utility charges. We have got to be intelligent and passionate about what we do and work in collaboration with our community to optimize our offerings, keep the cost down and the level of engagement high.

Sport is a major factor in the fight against obesity and in building communities - factors so vital to our status as the World's Most Liveable Community and close to my own heart.

#### Other Vital Issues for our City and Residents:

- Before my election four years ago you were concerned about rate hikes, lack of progress with the Melville Bypass, failing CDO investments, graffiti, extravagant expense claims, disunity on council and a high level of resignations amongst staff.
- I promised to fix all of that - and **I delivered!**
- We are now the United Nations, 'World's Most Liveable Community' and Australia's only 'Age-Friendly' City with:
  - investments at an all time high;
  - \$1 billion in promised Government funding to extend Roe Highway and construct a second Canning Bridge;
  - almost \$10m invested in new parkland;
  - \$5m+ in recreation centre upgrades;
  - graffiti down 71%;
  - \$1.5m in annual budget efficiencies;
  - the Mayor's clothing and air travel expenditure slashed to zero and
  - the lowest rate increase in the region for two years running.
- ✓ **Your vote made the difference!**
- ✓ **Continue to support professional, dynamic leadership.**
- ✓ **Help me to improve community consultation, provide sound financial management and alleviate traffic congestion by collaborating with the State Government to make Melville Bypass (Roe 7 extension) and the Canning Bridge Vision a reality.**

**MELVILLE CANNOT AFFORD A RE-RUN OF THE PAST**
