## GO GREEN, SAVE MONEY, HELP OUR CLUB

Dear Member

We'd like to inform you of a great opportunity to save money, reduce your carbon footprint and help our club.

The Government is planning to introduce a carbon tax which will greatly increase your water heating costs\*\*.

The great news is that the governments are offering a range of rebates and incentives worth thousands to help you make the switch to a solar water heater **RIGHT NOW!**

There is currently no guarantee that these rebates will be available in the future.

To help further, our club has negotiated a special discount with Solahart – Australia's leading manufacturer of solar water heaters which **allows members to buy a system for \$200\* below the retail value. For each system that is purchased by members Solahart will donate an additional \$100 to the club** to assist in our fundraising efforts.

By switching from electric or gas water heating to a Solahart you can expect to save up to 3 tonnes of CO2 each year which is equivalent to taking a 4 cylinder car off the road. Plus, you could enjoy **substantial savings off your annual energy bills.**

As energy prices soar, it's a great way to save now and in the future.

To take advantage of this offer, simply phone Solahart on **9314 1000** for your obligation **FREE** in-home consultation and show them this letter to secure your exclusive discount.

Yours Sincerely,

Club President

\*\$200 discount off the RRP of any Solahart system of 270 Litre capacity or above. **Conditions:** Not in conjunction with any other offer. Offer ends 30th June 2011

\*\*For information regarding The Govt Carbon Scheme go to: <http://www.climatechange.gov.au/government/reduce.aspx>

*Thank You* for choosing a Solahart.
