Membership collection for 2010-11 and beyond

The Club, after years of requests has decided to implement a direct debit collection scheme for this and future years. The principle of Club membership is that you join once and renew your membership annually thereafter and therefore it is particularly suited to collection by direct debit as you complete the form once and the Club will collect the membership fee annually until a member notifies the Club of their resignation.

Members will be notified annually in June (at the same time as letters go out re the AGM) of the fee for the coming season which will be collected on or around 1st September. If, on receipt of the notification for the coming season, a member decides to resign by not renewing their membership they will have until 15th August to notify the Club of their resignation. Any resignations received by 15th August will not be collected on the following 1st September.

We may also use this facility to collect monies due for International match tickets with the authority of the member.
