**MEDICAL INFORMATION**

Please detail below any important medical information that our coaches should be aware of (e.g. epilepsy, asthma, diabetes, etc.)

**Details:**

**Please ensure that all necessary medication is with your child when they are playing and training.**

Is the player named overleaf allergic to anything

Youth rugby is normally safe and injuries are rare. Nevertheless, prevention is better than cure and for our part, many of our coaches have Rugby Football Union Qualifications and also attended first aid courses. A medical problem or disability does not necessarily preclude a child from playing rugby, however your child's coach should be aware of anything to look out for and, if symptoms become apparent, what to do. Also, in the unlikely event of an injury when you are not present, we should be able to authorise emergency treatment.

**As a precautionary measure, please let us know if your child has suffered an injury, particularly concussion or a head injury, at home or at school**

| <b>TETANUS</b>         | We strongly recommend that all players are up-to-date with anti-tetanus injections.   |  |
| <b>MOUTH - GUARDS</b>  | It is compulsory for players to wear mouth guards during matches and training sessions from the age of U9, and strongly recommended for all other players. Temporary mouth guards are available from the club shop and most sport shops. Please do not hesitate to ask your age group coach for advice on fitting.  |  |
| <b>FIRST AID</b>       | If you have any particular medical or first aid qualifications and would be prepared to help. Please advise the players relative chairman / Manager (Mini's or Youth) to offer help.  |  |
| <b>MEDICAL CONSENT</b> | In the event of any illness, accident or injury requiring emergency hospital treatment of the player listed overleaf, I authorise old caterhamians Rugby Football Club or any agent acting on behalf to sign on my behalf any written form of consent required by hospital authorities, if a delay to obtain my signature is considered inadvisable by the doctor or surgeon concerned. |  |
