**DIVISION 5 1st XI, 2nd XI's, 3rd XI's, 4th XI's**  
**LIMITED OVERS MATCHES ROUNDS 1-4 & 14-18**  
**SCHEDULE EIGHT**

**1. Duration**

(a)	<p><i>For matches in Rounds 5-13 see 100 over Playing Conditions in Schedule Five.</i></p> <p>All matches shall be played on the day designated by the Executive Committee.</p> <p><b>Matches in Rounds 1-4 and 14-16</b> Will commence at 1.00pm.</p> <p><b>Matches in Rounds 17 &amp; 18</b> Will start at 12.00 noon</p>
(b)	There will be an interval of 30 minutes between innings, although this may be varied at the discretion of and agreement of both the Umpires and Captains in the case of an interrupted match.
(c)	<p>Each match shall consist of the following number of maximum overs:</p> <ul style="list-style-type: none"> <li>• Division 5 1<sup>st</sup> XI and all 2<sup>nd</sup> XI's and Premier Division 3<sup>rd</sup> XI – 50 overs per innings</li> <li>• All other Divisions 3<sup>rd</sup> XI and all 4<sup>th</sup> XI's – 45 overs per innings</li> </ul> <p>save where time is lost after the scheduled start time due to inclement weather or other unavoidable cause, when the number of overs shall be reduced as hereinafter provided.</p>
(c)	Unless bowled out earlier, the team batting first shall bat for the full number of overs allotted prior to the commencement of the match; declarations are not permitted. Should the side batting first be dismissed before the overs to which it is entitled have been bowled, the team batting second shall be entitled to bat for their respective maximum overs or as reduced due to inclement weather or other cause.
(d)	Should the match commence later than the scheduled start time due to inclement weather or other cause, the Umpires shall reduce the number of overs per team by one over for every 7 minutes of time lost between the scheduled start time and the actual commencement.
(e)	In the event of time being lost after the commencement of the match due to inclement weather or other cause during the innings of the team batting first, then the team batting first will receive their respective maximum overs or as reduced prior to the start of the match. The team batting second will then have its maximum number of overs reduced by one over for each 3.5 minutes of play lost during the first innings.
(f)	Should time be lost due to inclement weather or other cause either during the interval between innings or during the innings of the team batting second, then the number of overs which that team would have been entitled to receive shall be reduced by one over for each completed 3.5 minutes of playing time lost.
(g)	Both Captains and the Umpires shall agree drinks intervals prior to the start of each innings. A maximum of 5 minutes will be allowed for each drinks break.
(h)	Should the loss of time result in less than 20 overs being available to the team batting second, the game shall be abandoned.

<b>2. Number of Overs per Bowler</b>	
(a)	In each innings of the match no bowler may bowl more than 20% of the available overs in an innings. Where the total overs are not divisible by 5, an additional over shall be allowed to the minimum number of bowlers necessary to make up the balance - e.g. in a 43 over match, 3 bowlers may bowl 9 overs and no other more than 8 overs
(b)	In the event of a reduction in overs after the commencement of the match, the maximum number of overs allowed per bowler will be calculated as in paragraph 2(a) above.
(c)	In the event of a bowler being incapacitated or suspended and being unable to complete an over, the remaining balls will be bowled by another bowler providing that bowler did not bowl the previous over or part thereof. Such part of an over shall count as a full over only insofar as each bowler's limit is concerned.
<b>3. Restrictions on the Placement of Fielders</b>	
(a)	At the instant of delivery, there may not be more than five fielders on the leg side.
(b)	Two semi-circles shall be drawn on the field of play. The semi-circles shall have as their centre the middle stump at either end of the pitch. The radius of each of the semi-circles shall be 30 yards. The ends of each semi-circle shall be joined to the other by a straight line drawn on the field on the same side of the pitch. The field restriction area should be marked by 'dots' at five-yard intervals, each 'dot' to be covered by a white plastic or rubber (but not metal) disc measuring seven inches in diameter. Where such markings are unavailable then each captain has a direct responsibility to create an assumed "ring" and play by the spirit of the game by adhering to playing condition 3(c).
(c)	During the whole of each innings,, no more than five fielders shall be permitted outside the field restriction area referred to in paragraph 3 (b) above at the instant of delivery.
(d)	In the event of an infringement of any of the above fielding restrictions, the Umpire at the striker's end shall call and signal 'No Ball'.
(e)	In the event of the striker's end Umpire failing to call and signal No Ball when the fielding restrictions in this playing condition have been breached or when Law 41.5 has been breached (at the point of delivery, not more than two fielders other than the wicketkeeper shall be behind the popping crease on the on side), immediately the ball becomes dead the striker may draw the matter to that Umpire's attention. If the striker's end Umpire is able to verify the breach, he shall call and signal No Ball. If the striker's end Umpire is unable to verify the breach then he shall confirm that the events of the delivery shall be unchanged.
<b>4. No Ball</b>	
	If a bowler bowls a ball underarm the umpire shall call and signal 'No Ball'.
<b>5. Wide Ball</b>	
	Umpires are instructed to apply a very strict and consistent interpretation in regard to judging a wide in order to prevent negative bowling wide of the wicket or over the batsman's head The following criteria should be adopted as a guide to umpires: If a ball passes either side of the wicket sufficiently wide to make it virtually impossible for the striker to play a "normal cricket stroke" both from where he is standing and from where he should normally be standing at the crease, the umpire shall call and signal "Wide Ball". <i>Note: The above provisions do not apply if the striker makes contact with the ball, or if it passes below head height between the striker and the wicket.</i>
<b>6. Result</b>	
(a)	A result can only be achieved if both teams have had the opportunity of batting for at least 20 overs, unless the team batting second has scored more runs than its opponents or has achieved its target score as hereinafter defined.

(b)	Save as hereinafter provided the team that has scored the most runs shall win a match.														
(c)	<p>Where a team batting second does not have the opportunity of batting for the same number of overs as the team batting first due to time being lost after the commencement of the match, the result shall be determined as follows.</p> <p>The "2nd innings run rate" shall be determined immediately prior to the start of the innings of the team batting second using the following formula:-</p> $(100 + \{d \times 1.2\}) \times (1st\ innings\ run\ rate) \times (1 / 100)$ <p>Where d = difference in overs to be played at the commencement of the innings of the team batting second.</p> <p>1st innings run rate = (1st innings score) ÷ (number of overs allocated to the team batting first)</p> <p><b>Note</b> i) <i>The run rate of both the first and second innings shall be calculated to two decimal places.</i></p> <p>ii) <i>The run rate shall be agreed by both scorers and umpires prior to the start of the innings and once agreed shall be final.</i></p> <p>iii) <i>Once the run rate for the second innings has been calculated it shall remain as the run rate for that innings even though a later interruption may reduce the number of overs the team batting second can receive.</i></p> <p>iv) <i>If the second innings commences with the same number of overs as allocated to the team batting first the run rate shall remain as the first innings run rate even though a later interruption may reduce the number of overs the team batting second can receive.</i></p>														
(d)	The run rate shall be multiplied by the lowest reduced number of overs that the team batting second shall be entitled to receive after making allowance for time lost after the commencement of the match. The resulting figure shall be the <b>"target score"</b> as agreed by scorers/Umpires and Captains.														
(e)	If the score of team batting second surpasses the "target score" at any time prior to the conclusion of its innings then the match shall be won by the team batting second but if bowled out earlier the match shall be won by the team batting first. When less than 20 overs have been bowled in the 2 <sup>nd</sup> innings play must be in progress for a revised target score to become effective and for a result to be achieved using this revised target score.														
(f)	A match shall be tied if the scores are equal at the end of the match. In a match interrupted after the commencement, where the revised target score involves a fraction of a run, the fraction shall be rounded down and if the scores are then equal the result shall be a tie.
