Home Office definition of Professional vs Amateur:

Paragraph 6 of the Immigration Rules set out the definitions for an amateur and a professional sportsperson:

An **“Amateur”** is a person who engages in a sport or creative activity solely for personal enjoyment and who is not seeking to derive a living from the activity. This also includes a person playing or coaching in a charity game.

A **“Professional Sportsperson”**, is someone, whether paid or unpaid, who : is providing services as a sportsperson, playing or coaching in any capacity, at a professional or semi-professional level of sport; or being a person who currently derives, who has in the past derived or seeks in the future to derive, a living from playing or coaching, is providing services as a sportsperson or coach at any level of sport, unless they are doing so as an “Amateur”.

Deriving a living is defined as receiving payment for playing cricket and does not need to be the sole earnings.

A person may also be considered as “seeking to derive a living” if they have played as part of a player pathway**.

** Player “Pathway”: A player may be considered to be on a “Pathway” and therefore classified as a “Professional Sportsperson”, if that person has played cricket above U17 at state/ province/ territory level (paid or unpaid) in any country.

Responsibility of Clubs:

Clubs wishing to use the services of a player who is in the UK, but not on a Tier 5 Creative & Sporting (Non FCC) visa, must ensure that the visa the person has, allows them to play and/or coach.

They must make their own checks, and not solely rely on information that Agents provide them.

- The same process will apply if a player, in breach of the visa rules, was denied registration in one league to be found registered in another.

- Faces a penalty of up to £20,000
- The individual concerned could be stopped from entering the UK or deported
- If the club holds a current Tier 5 Sponsor License they can expect this to be withdrawn
